ABSTRACT. Please write down the abstract of your paper here...

Keywords: Please write down the keywords of your paper here, such as, Control systems, Genetic algorithm, ...

1. **Introduction.** Please write down the Introduction of your paper here...

2. **Problem Statement and Preliminaries.** Please write down your section. When you cite some references, please give numbers, such as, ...In the work of [1-3,5], the problem of... For more results on this topic, we refer readers to [1,4,5] and the references therein...

2.1. **Several definitions and theorems.** Please write down your subsection.

Examples for writing definition, lemma, theorem, corollary, example, remark.

Definition 2.1. System (1) is stable if and only if...

Lemma 2.1. If system (1) is stable, then...

Theorem 2.1. Consider system (1) with the control law...

Proof: Let...

Example 2.1. Let us consider the following example...

$$\dot{x}(t) = Ax(t) + Bu(t) + B_1w(t) \quad (1)$$

$$y(t) = Cx(t) + Du(t) + D_1w(t) \quad (2)$$

3. **Main Results.** Here are the main results in this paper...

Definition 3.1. System (3) is stable if and only if...

Lemma 3.1. If system (3)-(4) is stable, then...

$$\dot{x}(t) = Ax(t) + Bu(t) + B_2w(t) \quad (3)$$

$$y(t) = Cx(t) + Du(t) + D_2w(t) \quad (4)$$

Theorem 3.1. Consider system (3) with the control law...

Proof: Let...

Corollary 3.1. *If there is no uncertainty in system (3), i.e., $\Delta A = 0$, then...*

Remark 3.1. *It should be noted that the result in Theorem 3.1...*

Example 3.1. *Let us consider the following example...*

.....

4. **Control Design.** In this section, we present...

$$\dot{x}(t) = Ax(t) + Bu(t) + B_1w(t) \tag{5}$$

Definition 4.1. *System (5) is stable if and only if...*

FIGURE 1. Example of figure

Lemma 4.1. *If system (5) is stable, then...*

Theorem 4.1. *Consider system (5) with the control law...*

Proof: Let...

Corollary 4.1. *If there is no uncertainty in system (5), i.e., $\Delta A = 0$, then...*

Remark 4.1. *It should be noted that the result in Theorem 4.1...*

Example 4.1. *Let us consider the following example...*

.....

5. **Numerical Example.**

TABLE 1. Sample data

	x_1	x_2	x_3	x_4	x_5	x_6	x_7	x_8	x_9	x_{10}	x_{11}	x_{12}
M_1	1	1	1	0	0	0	0	0	0	0	0	0
M_2	0	0	1	1	1	1	1	0	1	0	0	0
M_3	0	1	0	1	1	0	0	1	0	0	0	0
M_4	1	0	0	0	2	0	0	1	0	0	0	0
M_5	0	0	0	1	0	1	1	0	0	0	0	0
M_6	0	0	0	0	0	0	0	0	0	1	0	0
M_7	0	0	0	0	0	0	0	0	0	1	1	0
M_8	0	0	0	0	0	0	0	0	0	1	1	1
M_9	0	0	0	0	0	0	0	0	1	0	1	1

6. **Conclusions.** The conclusion of your paper is here...

Acknowledgment. This work is partially supported by... The authors also gratefully acknowledge the helpful comments and suggestions of the reviewers, which have improved the presentation.

Author Biography

Professor Yan Shi received the BSc degree in applied mathematics from Northeast Heavy Machinery Institute (now Yanshan University), China, 1982; the MSc degree in applied mathematics from Dalian Maritime University, China, 1988; the PhD degree in information and computer sciences, from Osaka Electro-Communication University, Japan, 1997.

Prof. Shi is currently a full-time professor at the School of Industrial and Welfare Engineering, Tokai University, Japan. His research interests include approximate reasoning, fuzzy reasoning, fuzzy system modelling and applications, and neuro-fuzzy learning algorithms for system identification. He has published over 200 papers in journals and conferences. He has actively served in a number of journals.

Professor Junhu Ruan obtained his PhD degree in management science and engineering from Dalian University of Technology, China in 2015; he visited the University of Adelaide, Australia for PhD joint training from November 2013 to November 2014; he worked at the Polytechnic University of Hongkong as the postdoctoral from February 2016 to February 2018.

Prof. Ruan is currently a full-time professor at the College of Economics and Management, Northwest A&F University, China. His main research interests include the IoT-based agriculture, e-commerce, and logistics. He has published over 50 papers on well-known journals. He is hosting some research projects funded from National Natural Science Foundation of China, China Ministry of Education, etc.
